

## **Pediatric Neurologist Expert Meeting**

### **Concept**

A roundtable meeting for a group of approx. 20 experienced VNS Therapy users with a focus on paediatric epilepsy.

Gather existing VNS Therapy users with an extensive VNS experience & high interest in neurostimulation to build a network of active VNS Therapy advocates.

We will build further on the feedback & experience of the invited guests – we will focus much more on interaction & discussion.

The attendees will be invited to bring case studies for discussion, if they want.

### **Goals**

- Educate existing users on the latest development with VNS Therapy
- Maintain & increase the comfort level of VNS Therapy
  - Reinforce Early Use
- Inform, facilitate discussion on the use and place of VNS Therapy
  - Share Best Practices
- Reach a consensus/Call for Action

### **Meeting Topics**

- Latest Clinical Data on VNS Therapy®
- Advanced Dosing
- Treatment Pathway
- Product Innovation on VNS Therapy®
- Case Discussions

### **Speakers**

Speakers have been confirmed

David McCormick, Lieven Lagae and O'Neill D'Cruz
